

Amwell & Amwell Medical Group Telehealth Provider One-Pager

The Amwell Medical Group, Amwell's affiliated medical group, provides telehealth services for patients of national payers, health system and employer groups via Amwell's HIPAA compliant, video-based telehealth platform.

Associate physicians/NPs* work at will, when it is most convenient for them. There may also be periods of time when Amwell may look for availability for scheduled shifts and they are paid at a higher rate and offer a minimum guarantee. Most states only allow patients to be seen by doctors licensed in their state and therefore the more physicians we have online to accommodate the demands, the easier it is for us to match the right patient with the provider. ***Signing up is fast and simple, complete a 15-minute input of licensure information and the provider can be contacted within 3 days.***

Telehealth malpractice is covered by the Amwell Medical Group once the provider fully onboarded. For more questions, please visit: providers.amwell.com/covid-19

Amwell Medical Group physicians are trained and supported by a dedicated telehealth team. They are seeking doctors/NPs* to support the national response to COVID-19 to increase access to screening and treatment by having doctors/NPs see patients through their own computer or Apple mobile device.

If you meet all of the qualification below we urge you to sign up with Amwell to help screen and treat patients

- ✓ ***You are MD or DO physician board certified in family practice, general practice internal medicine, or emergency medicine.***
- ✓ ***Active state medical license***
- ✓ ***[In some states*] Nurse Practitioners***

*AK, AZ, CO, CT, DC, HI, IA, ID, IL, KY, MD, ME, MN, MT, ND, NE, NH, NM, NV, OR, RI, SD, UT, VA, VT, WA, WY, WV

Onboarding is fast, easy and 100% online.

1. Complete the online registration online form. It takes less than 15-minutes.
2. We'll approve your application in 3-5 business days.
3. Our experienced onboarding team will guide you through our video-based training and connect for a brief 1x1 video check-in and ensure you're prepared to see your first patient online.

About Amwell Medical Group

The Amwell Medical Group is the first national telehealth medical network. Today the Group is comprised of a network of more than 5000 board-certified physicians, psychiatrists, behavioral health and dietitians operating in 50 States. The Group operates as any large medical group would, with clinical leadership and management dedicated to the long-term welfare of patients.

Amwell is a trusted telehealth services provider, having delivered healthcare into people's homes and workplaces for close to a decade. The company serves the nation's top health systems and health plans, more than 1000 major employers and more than 50 million Americans who have Amwell as part of their insurance. Amwell's consumer service, Amwell, connects people with board-certified doctors, dieticians, and psychotherapists for video visits via smartphone, tablet, kiosk, phone, or desktop.
